Summary: The Power Rangers who are the police of the entire universe! They fight on earth and in space!

## 1. Chapter 1

I'm Bored

"I'm bored!" said Emperor Xeados.

"Me, too," said Zyco.

"There's nothing to do here," said Emperor Xeados.

"Is there anything that we can do for fun?" asked Orco.

"I have an idea," said Empress Lolla, "let's start conquering planets!"

"That's a \_great \_idea!" said Emperor Xeados, "where should we start?"

"How about the planet Earth?" said Zyco, "they \_are \_simple beings. It shouldn't be too hard to conquer them!"

"That's a start," said Emperor Xeados, "let's conquer \_all \_of the planets. Let's just start trouble everywhere!"

"That's a \_grand \_idea!" said Empress Lolla, "let's start with the planet Earth. It should be the easiest to conquer! Then we can move on to another planet!"

"I like the way that you think!" said Emperor Xeados, "let's have some fun!"

Emperor Xeados and all of his crew and army boarded his ship, and they travelled to where they were within short ranger of the planet Earth.

"Is everyone ready?" asked Emperor Xeados.

"Yeah!" said his four warriors.

"Zorcos!" said Emperor Xeados, "go down and wreak havoc!"

"Yes sir!" said the Zorcos.

The Zorcos left the ship and went to the planet Earth. They began harassing the citizens of Seraphim City. Some of the citizens called the police. The police came.

"Surrender, or we will shoot!" said a police commander on his megaphone.

"Go right ahead!" said a Zorco.

The police shot at the Zorcos. Their rifles did not phase them. The Zorcos were unharmed. The police were astonished why the Zorcos were unharmed. The Zorcos counterattacked with their laser pistols and fired at the police.

"Retreat!" said the police commander.

The police left and the military rolled in.

The military used all of the firepower that they had and again, their weapons did not phase the Zorcos. Again, the Zorcos counterattacked with \_their \_firepower and destroyed many of their jets and tanks.

"Retreat!" said an army officer, "they're too much!"

The military rolled back. The city of Seraphim City sounded the civil defense alarm.

"Look!" said Empress Lolla, "there sounding an alarm! They're cowering!"

"This is going to be easier than I thought!" said Emperor Xeados, "let's watch them in action! This will be fun! Victory is ours!"

Meanwhileâ€¦|

"Father," said Lexia.

"Yes, daughter," said Olar.

"The Dortians are trying to conquer the universe again!" said Lexia.

"How do you know this?" asked Olar.

"I was spying on them in the Dortia planet!" said Lexia.

"How many times have I told you to stay away from harm?" said Olar, "if something happens to you, well, I don't \_know \_what I would do!"

"Sorry," said Lexia.

"Just don't do it again!" said Olar.

"Yes, father," said Lexia.

"Anyway," said Olar, "I'm surprised that he has half a brain cell to take over the world! Anyway, he is still a danger! We need to work on this!"

"What do you want me to do, father?" asked Lexia.

"Be careful," said Olar.

"You just relax and leave this matter to me!" said Olar.

"Sigma X," said Olar.

"Yes?" said Sigma X.

Sigma X is a humanoid. The 'X' does not mean 'ten'. It is the actual letter.

"According to my daughter," said Olar, "the Dortians are trying to take over the universe! Do you have any suggestions?"

"Is he picking on the Earthlings?" asked Sigma X.

"How did you know?" asked Olar.

"They get all of the villains!" said Sigma X.

"You have a point," said Olar, "do you have any suggestions?"

"I notice that many Power Rangers teams have defended the Earth many times, so I suggest that we form a Power Rangers team!" said Sigma X, "it has worked before!"

"That is a great idea," said Olar, "let's brainstorm a plan to do this! This is possible!"

## 2. Chapter 2

### Chapter 2

Ian was unaware of the civil defense alarm. He was in Seraphim Waters on his jet ski, and he was enjoying himself. He expected no trouble. But trouble came. Zyco and Arco were in the area looking for trouble.

"I see a victim right there," said Zyco.

"Why?" asked Arco, "what do you plan to do?"

"Trust me," said Zyco.

While Ian was on his jet ski, Zyco zapped him. Ian found himself in a coliseum filled with cheering aliens.

"Why are they cheering for me?" asked Ian.

Ian began to smile, and he looked around as he smiled. But then, the smile stopped.

"Release the zizors!" said an announcer.

The crowd began to cheer more loudly.

"Zizors?" asked Ian to himself, "what are zizors?"

He looked around wondering what zizors were. He began to panic. He found his answer. Zizors resembled an ugly combination between a bull, a rhino, and a lion. He began to walk backwards slowly, as the zizors approached him slowly. He saw a javelin behind him and picked it up. He began to force the two zizors backwards. The two zizors walked slowly backwards in fear. The crowd began to show its displeasure. It became clear to Ian that the crowd was not on his side, because they booed him. Suddenly, Olar called to him.

"Young warrior!" said Olar, "over here!"

Ian began to look both ways at the zizors and Olar. He decided to drop his javelin and go to Olar.

"Come with me!" said Olar.

Ian went with Olar, though he had no idea who he was.

"Go after them!" said the coliseum owner, "they're costing me money!"

The coliseum guards chased after Olar and Ian. Ian and Olar ran towards the exit of the coliseum, and they made it out. They found some camouflage and hid in it. The guards could not find them.

"Stake out the area!" said the chief of the guards, "they could not have gone far!"

Meanwhile, in the camouflageâ€¦

"Thanks for saving my life," said Ian, "my name's Ian; what's yours?"

"My name is Olar," said Olar, "no one wins those bets! They fight until the zizors eat the warrior. Whoever sent you there was meant for you to be eaten by those zizors!"

"Well," said Ian, "I was on my jet ski, and then I found myself in the ring!"

"It must have been someone who must have wished you harm!" said Olar.

"What can I do in return for you saving my life?" asked Ian.

"We'll discuss that later," said Olar, "I have a star base 500 yards from here. Can you run that far?"

"I sure can!" said Ian.

"Then, let's go!" said Olar.

Olar and Ian left the camouflage. A guard spotted them.

"There they are!" said the guard.

The guards began to chase them.

"Run!" said Olar.

Ian made it to the 485th yard, and then he fell.

"Ian, listen!" said Olar, "I did not come this far to be killed by these warriors! Either you get up or I'll kill you myself!"

Ian got up quickly.

"That's my boy!" said Olar, "we have fifteen yards to go! Now, let's go, before they capture us!"

Ian and Olar met their destination.

"Well," said Olar, "we're here!"

"Here?" asked Ian, "I don't see anything!"

"Sigma X," said Ian, "two coming aboard!"

Sigma X teleported Ian and Olar into the star base. Ian was astonished by it.

"Wow!" said Ian, "this place is amazing!"

"Thanks!" said Olar.

"Now, how about that favor that I owed you," said Ian.

"Yes," said Olar, "\_that \_favor. Actually, it is a favor that you could do for all of us!"

"What do you mean?" asked Ian.

"The universe is in danger from an empire known as the Dortians," said Olar, "and we need to stop them from taking over and ruling the universe. If they get a chance, it could be bad news for all of us, including you."

"Okay," said Ian, "I'm in. What do I do?"

"Our defense is to start a Power Ranger team," said Olar, "and I feel that you are able to lead it. I will explain more to you later. I am giving you an assignment."

"What's that?" asked Ian.

"I need you to find four more capable rangers to be your teammates. I trust that you will make wise decisions," said Olar.

"No problem," said Ian, "I'll start right away."

Ian left to the city of Seraphim City.

### 3. Chapter 3

#### Chapter 3

Ian went to the Seraphim City Recreation Center. He looked around for candidates, but he did not know what to do. He decided to approach the juice bar manager.

"Hi!" said the juice bar manager, "what can I get for you?"

"Actually," said Ian, "I have a question."

"Shoot!" said the juice bar manager.

"Is there anyone around here who knows karate and is really smart?" asked Ian.

The juice bar manager pointed to a young African-American woman.

"Thanks!" said Ian.

"No problem!" said the juice bar manager.

"I wonder what that was all about!" said the juice bar manager to himself.

Ian approached the woman.

"Hi!" said Ian.

"Is there something that you need?" asked the woman.

"How would you like to become a Power Ranger?" asked Ian.

"Look!" said the woman, "I'm reading! I don't have \_time \_for this nonsense!"

"This is the real deal!" said Ian, "I can take you to the base if you want!"

"I'm not getting into \_your \_car!" said the woman.

"We don't have to," said Ian, "we can teleport there!"

The woman still didn't believe him.

"Okay," said the woman, "let's teleport there!"

"You asked!" said Ian.

"Sigma X," said Ian, "two coming aboard!"

Ian teleported to the star base with the woman in tow. The woman was astonished by the base.

"This place is amazing!" said the woman.

She turned to Ian.

"I'm sorry that I doubted you," said the woman, "the name's Lakeisha."

"I understand," said Ian, "I'm Ian!"

They shook hands.

"Nice to meet you!" said Lakeisha.

"Explore the base," said Ian, "I have to search for three more teammates!"

"Sure!" said Lakeisha.

Lakeisha met Sigma X, Olar, and Lexia.

Ian returned to the Seraphim City Recreational Center, but before he went in, a sign caught his eye. The sign basically said that there was a three-on-three karate match in the recreational center gym in thirty minutes from which he saw the sign.

"Great!" said Ian, "I can kill three birds with one stone!"

Ian went inside the building and into the gym. The bleachers were full, so he, among others, were forced to stand. The match began to start. Three people clad in white and three people clad in black entered at opposite sides of the ring. The referee stated the rules, and they began to fight. The team in black ended up winning. The referee gave them a humungous trophy and the team in black began to gloat on their way to the door. Ian tried to their attention.

"Excuse me?" asked Ian.

"Excuse me?" asked Ian.

"Whatever!" said a team in black contender.

Ian decided to focus his attention on the team in white. He approached him.

"Hi!" said Ian.

"What do you want?" asked a contender, "can't you tell that we lost a match?"

"I have a deal for you," said Ian.

"What's that?" asked a contender.

"How would you guys like to become Power Rangers?" asked Ian.

"Look!" said a contender, "we have no time for games, okay. It's bad enough that we lost the match!"

"I'm not playing around!" said Ian, "this is the real thing. If I take you to the base, would that be enough?"

"We will not come with you!" said a contender.

"Yeah!" said another contender.

"How about if we \_teleport \_there?" asked Ian.

"I guess," said a contender.

"Alright," said Ian, "Sigma X, four coming aboard!"

Ian and the three contenders found themselves in the star base. They were in awe when they saw the base. They looked around with astonishment.

"I'm Clayton," said a contender.

"I'm Melanie," said another contender.

"I'm Jose," said the third contender.

"I'm Ian," said Ian.

"I'm Lakeisha," said Lakeisha.

"Why don't all of you explore the base?" said Olar, "it will be a good idea for you to know your surroundings!"

"Olar," said Sigma X.

"Yes?" asked Olar.

"May I lead them in the tour?" asked Sigma X.

"That is," said Olar, "if it is okay with them!"

They all agreed.

"I guess that it is okay then," said Olar.

They began to tour the star base.

#### 4. Chapter 4

##### Chapter 4

"Sigma X," said Olar.

"Yes?" asked Sigma X.

"Are all of you done with the tour, yet?" asked Olar.

"Yes, we are!" said Sigma X.

"Then, come into the conference hull," said Olar, "we need to have a meeting!"

"Sure thing, Olar!" said Sigma X.

The conference hull is a meeting room with several chairs, a table, and a dry-erase board. It is a separate room in the star base. The rangers, Olar, Lexia, and Sigma X went inside. The five rangers and Lexia sat in the chairs. Olar and Sigma X chose to stand.

"Well," said Olar, "shall we get started?"

"Why not?" asked Sigma X.

"Welcome to the star base, rangers. I'm sure that you have met Sigma X, Lexia, and myself! Here's what is going on. I will tell you about the enemy first. We are facing the Dortian empire. They can be a \_dangerous \_empire. Emperor Xeados and Empress Lolla are the heads of the empire. Watch out! They can be deadly! Zyco, Orco, Arco, and Krylo are their chief warriors. Their forces are the Zorcos. They can be a tough force to beat. They fight on the ground or in aircraft. Kaelo is the one who creates the monsters. Any questions?"

"Yeah!" said Melanie, "where are the police and the military in this?"

"They tried their best but they could not vanquish these guys," said Olar, "they retreated and that is why the alarm in Seraphim City is sounding now!"

"I see!" said Melanie, "nothing further, then!"

"Are there any more questions?" asked Olar, "else I'll move on."

No one said anything.

"Okay," said Olar, "let me tell you about your powers. Jose, you are the black ranger. Melanie, you are the white ranger. Clayton, you are the blue ranger. Lakeisha, you are the yellow ranger. And finally, as the well-deserved team captain, Ian, you are the \_red ranger. \_Each of you has a Patrol Blaster which can become the Patrol Sword. But each of you has an individual weapon. Jose, you have the Laser Axe. Melanie, you have the Laser Cannon. Clayton, you have the Laser Lance. Lakeisha, you have the Laser Shield. And, Ian, you have the Laser Sword. Each of these combine to form the Laser Howitzer. Your powers will let all of you manipulate the elements of lasers and electricity to a certain limit. When a monster becomes giant, you will call on machines called \_zords. \_For now, you will have zords called the Terra Zords. These are five space tanks with many weapons. They have limited flight. Together, these Terra Zords form the Terra Megazord which is armed with the Terra Shield and the Terra Cannon. Are there any questions?"

Nothing was said. Olar handed them their APDs. The rangers looked them over carefully, because they were unsure of what they were.

"What are these?" asked Lakeisha.

"Those are your APDs," said Olar.

"AP-whats?" asked Clayton.

"Your APDs!" said Olar.

"They stand for All Purpose Devices. They do many things. They are your morpher, your de-morpher, your communicator, your zord calling device, teleporter, badge, watch, and internet surfer. They do all this for you. Don't lose them!"

"Wow!" said Clayton.

"Why don't we try them out?" said Lakeisha, "how does this thing work?"

"Press the red button on the left to morph!" said Olar.

"Here goes!" said Melanie.

The rangers morphed. They were pleased with their suits. The suit was mainly their color but they had a dark grey upside-down triangle under their neck. Their belt-buckle and boots were dark-grey. They still had the white turtle neck. Their helmets are close and basically the same. The rangers powered down. They were happy with their powers.

"Would you like to try out your powers?" asked Lexia.

"Yeah," said Ian, "why?"

"Seraphim City has a lot of them!" said Lexia.

"We can handle them!" said Ian, "right, guys?"

They all agreed.

"Then, let's do it!" said Ian.

"To serve and protect!" said the rangers as they morphed.

The five rangers went to fight the Zorcos. They had a miserable time trying to defeat them, because they did not know how to defeat them. Suddenly, Jose accidentally pulled a Zorco's head off, and the Zorco fell to the ground, exploded, and was no more. Jose had an idea.

"Hey, guys," said Jose, "rip their heads off! That's how you destroy them!"

The others had a rough time discerning Jose's message, but then they got the picture. They began to defeat the Zorcos with ease, but they were not able to defeat all of them. Emperor Xeados took the remainder back to Dortia. The rangers went back to the star base.

"Good job, guys!" said Olar, "I \_knew \_that you could do the job! There's just a couple of rules that I want you to follow. Fight fair. Don't reveal your identity unless you need to. And finally, do not use your powers for personal gain. Does that sound okay to you?"

They all agreed.

"Good," said Olar, "then all that I have to say is, welcome aboard!"

They all smiled and went their way.

## 5. Chapter 5

### Chapter 5

"What's on the agenda for today, Kealo?" asked Empress Lolla.

"I am making a monster called Cannontron," said Kealo, "he will blast those rangers into oblivion!"

"Great!" said Empress Lolla, "send him down!"

"I will," said Kealo, "thank you, my lady!"

Empress Lolla left the area. Kealo made the monster and sent him down with some Zorcos. Cannontron and the Zorcos began harassing the public. Cannontron began shooting his humungous cannon at the public. The public was running everywhere in fear. The alarm sounded in the star base. The rangers assembled quickly in the battle room.

"What's going on?" asked Clayton.

They saw the Zorcos harassing the public, but the big one was when they saw Cannontron shooting his cannon at the public and laughing about it.

"Did you see that?" asked Jose.

"Oh, no!" said Lakeisha, "we need to get down there, now!"

"Yeah!" said Ian, "let's go, everyone!"

"To serve and protect!" said the rangers as they morphed.

The rangers arrived on the scene.

"That's far enough!" said Ian.

"No, it isn't!" said Cannontron, "Zorcos, attack!"

The Zorcos attacked the rangers, and the rangers had some difficulty with them, but the rangers defeated all of them.

"Now," said Ian, "It's your turn!"

"I know that it is my turn," said Cannontron, "see!"

Cannontron blasted the rangers with his humungous center cannon. The rangers were knocked into the air and fell to the ground. The rangers were hit badly. Cannontron began to laugh.

"How do you like that, rangers?" said Cannontron, "here's one

more!"

Cannontron blasted them again. They flew into the air like rag dolls and landed on the ground.

"We're getting nowhere!" said Clayton, "we need a plan!"

"I have an idea, guys!" said Ian, "everyone! Fire into his cannon with your blasters!"

"Right!" said the other rangers.

The rangers counterattacked by shooting their Patrol Blasters at Cannontron's cannon and penetrating the insides. Cannontron became weak. The rangers stood up.

"Now, we have you!" said Melanie.

"Everyone!" said Ian, "assemble the Laser Howitzer!"

The five rangers put their weapons together and formed the Laser Howitzer, and blasted Cannontron. Cannontron became incapacitated. Emperor Xeados quickly noticed the situation.

"The battle is not over yet, rangers!" said Emperor Xeados.

Emperor Xeados powered up his staff and made Cannontron giant.

"Olar," said Ian on his communicator, "we need the zords!"

"They're on the way!" said Olar.

The Terra Zords came to the rangers. The rangers hopped inside.

"These are cool!" said Ian.

"I agree!" said Melanie.

"Alright, everyone!" said Ian, "let's bring them together! Let's form the Terra Megazord!"

They docked and combined all of the Terra Zords together, and formed the Terra Megazord for the first time ever.

"This is amazing!" said Jose.

"Yeah!" said Melanie.

"Alright, guys," said Ian, "let's show him what we're made of!"

"Yeah!" said Lakeisha.

"Your tin can is no match for me!" said Cannontron.

"Oh yeah!" said Lakeisha, "come and get it!"

The Terra Megazord charged towards Cannontron. Cannontron fired his

humungous cannon at the Terra Megazord. The Terra Megazord fell down. As the Terra Megazord was down, Cannontron placed his foot on top of the Terra Megazord. Cannontron began to laugh.

"I told you that you were worthless!" said Cannontron, "prepare to be defeated! Ha! Ha! Ha!"

"Eat this!" said Ian.

The rangers shot a laser at Cannontron. Cannontron fell over, and the Terra Megazord was able to stand.

"Let's finish this guy!" said Ian.

"Oh, no, you don't!" said Cannontron, "watch this!"

"We're not going through that again!" said Melanie, "shoot a laser at his cannon!"

"Good idea!" said Ian.

Before Cannontron could fire his humungous cannon, the rangers shot a laser in his humungous cannon which penetrated his system.

"\_Now,\_" said Ian, "we can finish this guy!"

The rangers readied the Terra Cannon.

"Terra Blast!" said Ian.

The Terra Blast hit Cannontron, and he fell backwards and exploded on contact with the ground. Cannontron was no more. The rangers briefly celebrated, returned their zords, and went back to the star base.

"I will \_not \_accept defeat!" said Emperor Xeados, "I \_will \_conquer this planet! It is going to be my destiny! I \_will \_have my victory!"

Emperor Xeados' body turned fully red. The others ran away from him.

## 6. Chapter 6

### Chapter 6

There were many people enjoying themselves in Pearson Park in Seraphim City. They expected no trouble. However, Zyco was there looking for a way to cause trouble. He was observing them. He noticed a little boy drinking water at a water fountain.

"So!" said Zyco, to himself, "the humans rely on water to survive, huh? I'll tell them this! I've found their weakness!"

Zyco returned to the base and searched for Emperor Xeados.

"Hey, boss!" said Zyco.

"Yes?" asked Emperor Xeados, "what is it?"

"The humans rely on water," said Zyco, "is there a way to destroy that life-giving resource?"

"Good job, Zyco," said Emperor Xeados, "we'll work on it!"

"Kealo!" said Emperor Xeados.

"Yes?" asked Kealo.

"I need a way to pollute the humans' water," said Emperor Xeados, "can you do that for me?"

"Yes," said Kealo, "I can! Just give me some time, my lord!"

"Excellence!" said Emperor Xeados, "soon, the humans will be \_dying \_of thirst. Those poor humans! Victory is ours!"

Kealo created Pollutron and presented him to Emperor Xeados. They both came into Emperor Xeados's quarters.

"Emperor," said Kealo.

"Yes?" asked Emperor Xeados.

"I present to you \_Pollutron!" \_said Kealo, "he will pollute the Earthlings' water so that it will not be drinkable!"

"Excellence!" said Emperor Xeados, "send him down! I'm going to love this!"

Pollutron went to Pearson Park first and to the waters. He began to pollute the waters right away, and he laughed about it. The alarm sounded in the star base. The rangers assembled quickly.

"What's going on?" asked Melanie.

"He's polluting our waters!" said Clayton, "that's what! We need to stop him!"

"Yeah!" said Ian, "let's go, guys!"

"To serve and to protect!" said the rangers as they morphed.

"Stop that!" said Melanie to Pollutron.

"Who's going to stop me?" asked Pollutron, "you?"

Pollutron shot smog in the direction of the rangers. The rangers could no longer see, and then, he zapped them with his lasers. The smog that surrounded the rangers began to explode. The rangers fell to the ground. Pollutron went back to poisoning the waters.

"We can't let him poison the waters!" said Jose, "if he does, many people will get sick!"

"I know!" said Ian, "we may not be able to use our firepower; it could harm the earth!"

"So, what do we do?" asked Melanie, "we can't just lie

here!"

Pollutron zapped the rangers again and continued to poison the water. He began to laugh at the rangers' condition.

"We need a plan!" said Jose, "or we're just sitting ducks!"

"I have an idea!" said Clayton, "just trust me as I say this! Ian, run! Ian, run and come around the monster!"

"Sure will!" said Ian.

The other four charged towards the monster. Pollutron hit them with lasers. The rangers took a tumble. Ian came behind him and zapped Pollutron with his Patrol Blaster. Pollutron began to explode because it was made of pollution.

"What's happening?" asked Pollutron.

But he only partly exploded. Part of him remained.

"We need to be careful!" said Ian, "part of him \_is \_destroyed but if we blast him more, we could hurt the environment!"

"I know!" said Melanie.

"Wait, guys!" said Lakeisha, "I have an idea! Everyone! Stay behind me!"

Lakeisha deployed her Laser Shield as the others remained behind her. Pollutron's laser attacks hit the Laser Shield. When she approached him, Ian used his Laser Saber and attacked him. Pollutron was incapacitated. Emperor Xeados quickly noticed the situation, healed Pollutron, and made him giant.

"Olar," said Ian on his communicator, "we need the zords!"

"Coming right up!" said Olar.

The Terra Zords came to the rangers, and they hopped inside.

"Let's form the Terra Megazord!" said Ian.

The Terra Zords combined and formed the Terra Megazord.

"Remember," said Ian, "we can't use firepower, so we need to find another option."

"How about the Terra Saber?" asked Melanie.

"Good idea!" said Ian.

The rangers readied the Terra Saber. After a few hits from the Terra Saber, Pollutron had enough.

"Let's finish him!" said Ian.

They powered up the Terra Saber, and thrust it into Pollutron. Pollutron fell backwards and exploded on contact with the ground. Pollutron was no more. The rangers briefly celebrated, returned their

zords, and went back to the star base. The pollution that was caused by Pollutron disintegrated and was no more. The water became safe to drink.

## 7. Chapter 7

### Chapter 7

The state fair was today. Everyone was enjoying themselves. They expected no trouble. However, Krylo was also at the scene looking for a way to start trouble. He saw a clown who was making animal balloons for the children and some adults.

"Hmmm," said Krylo, "I have an idea!"

Krylo went to the base.

"Hey, Kealo!" said Krylo.

"What is it?" asked Kealo.

"I have an idea for a monster!" said Krylo.

"Well," said Kealo, "tell me what it is! Stop wasting time!"

"How about a clown monster?" said Krylo, "the humans see to respect them, maybe we can change that!"

"That's a good idea," said Kealo, but I have to approve it through the boss first!"

"What's stopping you?" said Krylo.

"You're right," said Kealo, "I'll go and tell him now!"

Kealo walked into the emperor's room.

"Hey, boss!" said Kealo.

"Yes?" asked Emperor Xeados.

"Krylo and I have come up with a good idea!" said Kealo.

"Well," said Emperor Xeados, "what is it?"

"You know that people respect clowns, right?" asked Kealo.

"Right," said Emperor Xeados.

"We can use that fact against them!" said Kealo, "we can make clowns look bad, and we can make a clown monster for the rangers to fight!"

"It sounds good," said Emperor Xeados, "I will leave the matter into your hands. When you are finished send it down!"

"Yes sir!" said Kealo.

Kealo created Clowntron and sent him in the middle of the fair. Right

away, the public knew that he was a monster and not a regular clown.

"Hello, ladies and gentlemen!" said Clowntron, "this is going to be the bomb!"

Clowntron became tossing spherical-shaped bombs in the crowd. They exploded. The crowd began to run amock. Some Zorcos came to harass the public. The alarm sounded in the star base. The rangers assembled quickly in the battle room. They saw Clowntron in action on the viewing screen.

; "Is that guy crazy?" asked Jose, "he's liable to hurt someone!"

"I think that's his goal!" said Clayton.

"Yeah," said Jose, "you're right!"

"One of our goals should be to take the public to safety," said Melanie, "right now, they are running like crazy! We can't afford for them to be hurt by this guy!"

; "I agree," said Ian, "two of us should probably take on that task!"

"I'll go," said Melanie.

"Me, too!" said Jose.

"And the rest of us will focus on the monster, and hopefully, we can isolate him from the public!" said Ian, "so, is everyone ready to go?"

They all either said yes or nodded yes.

"Then, let's go!" said Ian.

"To serve and to protect!" said the rangers as they morphed.

L Jose and Melanie went to an area, and they began to direct the public to safety. The others attended to the monster. Jose and Melanie directed the public to the exit of the fair. The public fully cooperated. They caught buses and went home and they were safe. Then, Jose and Melanie joined the others in the fight against Clowntron.

"This guy is difficult!" said Clayton.

"That's okay," said Melanie, "we're here to help!"

Clowntron repeatedly threw more spherical bombs at the rangers. The rangers took more tumbles. Suddenly, they were clinging to the ground.

"We need a plan!" said Jose, "we're getting absolutely nowhere!"

"I have an idea," said Ian, "everyone, get up! Do what I do!"

Clowntron tossed another bomb, and this time, the rangers did not run

from the flying bomb, but Ian caught it, and he tossed it back at Clowntron. It exploded on contact with the ground on which Clowntron was standing.

"I see!" said Lakeisha, "we're throwing them back!"

"Yep!" said Ian.

"Oh, now, you think that you are something!" said Clowntron, "try this on for size!"

Clowntron tossed another bomb at the rangers, Jose caught it, and he tossed it back in Clowntron's direction. It exploded on contact with Clowntron's area.

"Alright, everyone," said Ian, "quickly, blast him!"

The rangers continued to blast him until he became weak. Clowntron lost his focus. Emperor Xeados quickly noticed Clowntron's situation and made him giant.

"Olar," said Ian on his communicator, "we need the zords!"

"They're on their way!" said Olar.

The Terra Zords came towards the rangers. The rangers hopped inside.

"Let's form the Terra Megazord!" said Ian.

The rangers docked and combined their zords to form the Terra Megazord. Clowntron tossed bombs at the Terra Megazord. The Terra Megazord was hit.

"I have an idea," said Ian, "let's play baseball!"

"What do you mean?" asked Melanie.

"We can use the Terra Saber as a bat to bat the bombs away!" said Ian.

"Good thinking!" said Lakeisha, "we can advance slowly as we do it!"

"Yeah!" said Ian, "let's do it! Terra Saber, power up!"

The rangers used the Terra Saber to bat the coming bombs from Clowntron as they approached him. When they became close enough, they gave Clowntron an electric punch. Clowntron fell over. The rangers realized that they have got their chance. They powered up the Terra Saber and thrust it through Clowntron. Clowntron fell backwards, exploded, and was no more. The rangers briefly celebrated, returned their zords, and went back to base.

## 8. Chapter 8

### Chapter 8

"Hey, boss!" said Arco.

>"What is it?" asked Emperor Xeados.<p>

"I have noticed a \_serious \_weakness in the rangers!" said Arco.

"Yes?" asked Emperor Xeados, "and, what is that?" asked Emperor Xeados.

"The rangers and the Terra Megazord cannot fly to a certain height!" said Arco.

"Hmmm!" said Emperor Xeados, "you have something there! Kealo! Get in here!"

Kealo came to where Emperor Xeados and Arco were standing.

"Yes, boss?" asked Kealo.

"I want you to create a monster that can fly to higher heights!" said Emperor Xeados, "it seems to be their weakness! I will send some Zorcos who will attack from the air to assist the monster!"

"No problem, sir!" said Kealo, "at once, sir!"

Kealo created Flightttron, and they both went to Emperor Xeados for approval.

"So, boss," said Kealo, "what do you think? His name is Flightron!"

"He'll do fine!" said Emperor Xeados, "send him down!"

"Right away, sir," said Kealo, "thank you, sir!"

Flightron and Zorcos began attacking the citizens and Seraphim City. The alarm sounded in the star base. The rangers quickly assembled in the battle room.

"Why are they attacking the public from the air?" asked Jose.

"They're stupid!" said Clayton, "that's why!"

"Let's go and take care of this!" said Ian.

"To serve and to protect!" said the rangers as they morphed.

They arrived at the scene.

"That's enough!" said Ian.

"Catch me if you can!" said Flightttron.

Both Flightttron and the Zorcos began shooting at the rangers from the air.

"Everyone!" said Ian, "ready your Patrol Blasters, and let's shoot these guys out of the sky!"

They managed to shoot down the Zorcos, but not Flightron.

"Ha, ha!" said Flightttron, "I didn't get scratched!"

Flightttron shot electricity at the rangers from the air.

"Man!" said Ian, "we're at a severe disadvantage! We need help!"

Ian reached for his APD.

"Olar!" said Ian, "we can't catch this guy! He has a flight advantage!"

"I will send you the Patrol Cycles!" said Olar.

"What would that do?" asked Ian, "we need something that will fly!"

"Let me explain," said Olar, "these Patrol Cycles have another mode. They can become the Patrol Gliders. Lean forward to go down. Lean backward to go up. Lean to the left to go up. Lean to the right to go right. They have some laser blasters equipped within them. They also have police sirens equipped with him so that if the public needs to make room, they will!"

"Then, send them down!" said Ian.

"Right away, Ian!" said Olar.

The Patrol Cycles came towards the rangers.

"Glider mode!" said Ian.

The Patrol Cycles became the Patrol Gliders. They chased Flightttron with their Patrol Gliders. The rangers surrounded Flightttron. Flightttron could not focus, so he fired his homing missiles which hit all of the rangers. The rangers almost lost focus with their gliders, but they quickly regained focus. They counterattacked by using the lasers that were equipped with the Patrol Gliders. Flightttron fell to the ground. The rangers returned their Patrol Gliders and went to fight him on the ground. Flightttron charged towards the rangers and knocked them around. Melanie employed her Laser Cannon, and Flightttron fell over.

"Alright, everyone!" said Ian, "let's assemble the Laser Howitzer quickly!"

The rangers quickly assembled the Laser Howitzer before Flightttron could stand up.

"Ready!" said Ian, "fire!"

The blast hit Flightttron, and Flightttron was incapacitated. The rangers quickly celebrated. Emperor Xeados quickly noticed Flightttron's situation, healed him, and made him as giant. Flightttron flew high into the sky.

"Bet you can't catch me!" said Flightttron.

"Olar," said Ian, "we need the zords!"

"Coming right up!" said Flighttron.

The Terra Zords came to the rangers. They hopped inside.

"Let's form the Terra Megazord!" said Ian.

They formed the Terra Megazord. Flighttron shot air-to-surface missiles at the Terra Megazord. The rangers were hit hard. Flying Zorcos also joined the fight against the Terra Megazord. The rangers were in a losing fight.

"We're losing badly!" said Clayton.

"You know," said Lakeisha, "I don't think that we have enough power to defeat this guy! Maybe we have to ask Olar for help!"

"I'm with you, Lakeisha!" said Ian.

"Olar!" said Ian, "we're getting creamed! This guy is way above our flying ability!"

"Rangers!" said Olar, "come back to the star base for a quick meeting!"

"I don't feel comfortable leaving this guy alone!" said Melanie.

"Let's just trust Olar's judgment," said Ian.

"Yeah," said Melanie, "you have a point! I guess we had better go!"

"We'll be back!" said Ian to Flighttron.

"Retreating?" asked Flighttron, "I was just getting started!"

The rangers went to the star base and went to the meeting room.

"Olar!" said Lakeisha, "what's up?"

"I brought you here to introduce another option!" said Olar.

"What is it?" asked Ian.

"It's another Megazord!" said Olar.

"Another Megazord?" asked Jose, "cool!"

"This is the Aero Megazord!" said Olar.

Olar showed them the Aero Megazord and each individual Aero Zord on the viewing screen.

"The Terra Megazord can only fight on the ground and fly to a certain length, but the Aero Megazord can fly \_anywhere. \_Like the Terra Megazord, it has various weapons. The Aero Megazord is equipped with the Aero Shield and the Aero Torpedo. They will finish any monster. Now, the Aero Megazord is not designed to \_replace \_the Terra Megazord. It is just another option. Good luck, and may the power be

with you!" said Olar.

"You heard the man!" said Ian, "let's try these new zords out!"

The rangers went back to the scene.

"Back for more, eh?" asked Flightttron.

Flightttron went right into the air.

"Can't catch me!" said Flightttron.

"Oh yeah!" said Ian, "Olar, send the Aero Zords!"

"Right away," said Olar, "good luck!"

The Aero Zords came right to the rangers. The rangers hopped inside.

"Let's form the Aero Megazord!" said Ian.

The rangers combined all of their Aero Zords and formed the Aero Megazord.

"You think you can catch me, huh?" asked Flightttron, "eat this!"

Flightttron fired missiles at the Aero Megazord. The Aero Megazord deflected them with the Aero Shield. The Aero Megazord caught up with him. They exchanged punches and kicks. Flightttron had enough. They left enough space between them, and the rangers fired the Aero Torpedo. It hit Flightttron, Flightttron exploded, and Flightttron was no more. The rangers briefly celebrated, returned the zords, and went back to the star base.

"Those Aero Zords are cool!" said Jose, "the Terra Zords are awesome, also!"

"I agree!" said Lakeisha.

"Remember," said Olar, "they are not \_replacing \_the Terra Zords; they are just another option!"

"Understood!" said Ian.

The rangers went back to their personal spaces.

## 9. Chapter 9

### Chapter 9

"I think that we should try and conquer another planet," said Emperor Xeados, "we are losing too much! How about Aquitar?"

"Splendid idea, my lord!" said Empress Lolla.

"Yeah!" said Zyco, "let's do it!"

"Kealo!" said Emperor Xeados, "come in here!"

Kealo came in a hurry.

"Yes sir?" asked Kealo.

"I want you to create a monster who will go to the planet Aquitar and steal their water!" said Emperor Xeados.

"I'll see what I could do!" said Kealo.

Kealo left Zyco and Emperor Xeados' sight. He created Hydrotron. Kealo and Hydrotron went to Emperor Xeados' area, and went to present Hydrotron to Emperor Xeados. Emperor Xeados was pleased.

"Send him to Aquitar," said Emperor Xeados, "it will be fun to pick on helpless aliens!"

On Aquitar, Billy and the Aquitians were having a meal, then they experienced a disturbance. They walked outside their pod-like structure and saw Hydrotron draining their water supply.

"It's morphing time!" said Delphine.

"We need Aquitar ranger power now!" said the five Alien Rangers.

"Time to call it quits!" said Aurico.

"No way!" said Hydrotron.

Hydrotron zapped them with a laser beam. The Aquitians tumbled like rag dolls.

"Now, I'm going to have some \_real \_fun!" said Hydrotron.

Hydrotron became giant.

"We need the Shogun Zords!" said Aurico.

The Shogun Zords came to the alien rangers, and they formed the Shogun Megazord.

"Shoot the fire spray!" said TIdeus.

The alien rangers shot the flower spray in Hydrotrons' eyes, and Hydrotron could no longer focus nor see.

"We have him at an advantage!" said Delphine, "let's finish the job! Shogun Megazord Fire Saber now!"

The alien rangers fired up the Flame Saber, and they thrust it through Hydrotron. Hydrotron fell backwards and exploded. Hydrotron was no more. They exited and returned the Shogun Zords.

"Cestria," said Aurico.

"Yes?" said Cestria.

"You need to talk to Billy," said Aurico.

"Why?" asked Cestria, "what's wrong?"

"It is that he is needed on Earth!" said Aurico, "there is a Power Ranger team on Earth who can use his help. They are suited to handle these villains! We aren't!"

"I see!" said Cestria, "I'll see what I can do!"

"Thanks, Cestria," said Aurico.

Cestria went to the pod where Billy and she were living together. She approached Billy.

"Cestria!" said Billy, "how are you doing?"

"Billy," said Cestria, "we need to talk!"

"What's wrong?" asked Billy.

"It's just that you are needed with an Earthling Power Ranger team!" said Cestria.

"Why do you say that?" asked Billy.

"They sent a monster that we have much trouble with," said Cestria, "and the team that handles this type of villain did not fight the Hydrotron. We did!"

"What about our relationship together?" asked Billy.

"Billy," said Cestria, "you know that you and I have had good times together, but sometimes, things happen!"

"I understand," said Billy, "but what about my aging issue?"

"That's no longer an issue!" said Cestro.

Cestro came with a liquid solution for Billy's aging problem.

"Drink this!" said Cestro, "try to ignore the taste!"

"Right!" said Billy.

Billy drink the whole solution, and he felt like vomiting, but he did recover.

"I guess that I'd better get going!" said Billy, "I'm going to miss you guys!"

"Don't worry," said Delphine, "you can visit us anytime! You do have the power of teleportation!"

"You have a point!" said Billy.

"Billy," said Aurico, "before you go, I have to present you with a gift!"

Aurico gave Billy an unwrapped gift box.

"Open it!" said Corcus.

Billy opened the box and saw a device in it.

"What is it?" asked Billy.

"It's a power morpher!" said Delphine, "it is the power of the indigo ranger. It is a ranger that is compatible with the rangers who you are going to meet. You will have the power of the weather in space. Your zord is the mighty Colossus. It is a carrier zord that will carry the other zords into battle. It has a Megazord mode also. It can fight in battle. To control your powers, you have the Space Scepter. Good luck to you!"

They teleported Billy from Aquitar to the ranger's star base. He landed in the battle room. The rangers heard the sound of his arrival. The rangers came to the battle room.

"Who are you?" asked Melanie.

"I come in peace!" said Billy, "my name is Billy Cranston. I was sent here to help you guys from the rangers of Aquitar! Trust me, I'm a \_good\_ guy!"

"How'd you get here?" asked Lakeisha.

"The rangers of Aquitar teleported me here," said Billy.

' "He's probably cool!" said Clayton.

"Tell me," said Ian, "do you have any credentials?"

"Yes, I do," said Billy, "I was the first blue ranger ever! When the powers were decimated, I gave my newfound powers to someone else. I was not able to obtain newer powers because I absorbed negative ions. Now, I am the indigo rangerâ€¦."

"How did you become a ranger?" asked Olar.

"The Aquitians gave it to me as a gift!" said Billy.

"I guess I trust their judgement!" said Olar, "say; can I see what you look like?"

"Sure!" said Billy, "here it goes!"

"To protect and to serve!" said Billy as he morphed.

"You look nice!" said Lakeisha, "what is your zord?"

"It's a ship," said Billy, "it's on your landing dock!"

"Let's go and see!" said Ian.

The rangers and crew went to see Billy's zord.

"Everyone," said Billy, "this is the Colossus! It will carry your zords into battle and fight by your side."

"It is better than hiding the zords!" said Sigma X, "at least, now, we know where they are!"

"I know that's right!" said Lakeisha.

All of them went to the battle room.

"Although Ian is the field commander, Billy will command the team from the base. Billy will fight when need be," said Olar.

They all smiled, and went to their personal bases, then some remained to talk with Billy.

End  
file.
